Zumbers is the best and funniest way that preschool children can learn to count from 1 to 20 in up to six languages. Five great characters, accompanied by their inseparable vehicle-gadget, set out on a journey where the main purpose is to eat, one by one, the delicious round donuts scattered around the garden. The donuts are hanging from balloons which are numbered 1 to 20. Each time one of the characters eats one of these balloons, we hear the number being said. While we go from number to number, a nice picture is drawn on the ground making it fun for the child to guess what that drawing is. We have dubbed it in six languages: Spanish, English, French, Italian, German and Portuguese.
